Statement of Ken Paxton on Subpoena of Pastors By the City of Houston

(McKinney, TX) - Statement of Senator Ken Paxton:

"The sobering and unprecedented developments in Houston regarding pastors and religious leaders having their sermons subpoenaed for speaking in favor of traditional marriage is entirely unacceptable. Not only does this infringe upon the right to Freedom of Speech, but it also grossly encroaches upon our Freedom of Religion - both fundamental rights protected by the U.S. Constitution. I am deeply concerned about these actions being taken against these faith leaders who simply spoke out in support of the traditional covenant of marriage."
